*Tensile strength is directly related  
 to abrasion resistance.*

Most other manufacturer's products are  
 made from cowhide. Make your own ten-  
 site strength and abrasion resistance test.  
 Push pin or needle through the deerskin,  
 then through the cowhide.

**#500** Wrist length and elasticized  
 around wrist for snug fit. Also available  
 ventilated, **#500V.**
